Aggressive Strength in a Few Stocks Had No Effect on the General List -Local Trade Is Active.

At New York yesterday money on call was firm at 4 to 5 per cent.; last loan, 4 per

Prime mercantile paper, 5@51/2 per cent. Sterling exchange was irregular, with actual business in bankers' bills at \$4.85% for demand and \$1.82@4.82% for sixty days; posted rates, \$4.82 and \$4.821/4; commercial bills, \$4.81%@4.81%.

Silver certificates were 604@614c; silver bars, 59%c; Mexican dollars, 47%c. At Lon-

don bar silver was 27%d per ounce. Prices of stocks made continual but unavailing efforts to stand up under the weight of heavy sales to realize profits, but in the majority of instances the last prices are below those of Thursday night. The whole list was at one time higher than Thursday night, and several stocks or groups of stocks made a show of aggressive strength. But this seemed to be due largely to liquidation to sustain the list in the interest of those who were selling to take their profits. This was notably the case in B. & O. preferred, which was pushing up nearly 3 points. While the preferred was thus rising heavy selling continued in the common stock. All of those stocks which have been | mixed, 3; total, 4 cars. most heavily bought in the last few days were most largely sold yesterday. Selling orders came not only from the boardroom traders, but from outside sources, and London reversed its position of Thursday. It bought slightly of some stocks, but the balance of transactions on that account was on the side of sales. This had a decided sentimental influence on speculative opinion, as great hopes were aroused by London's active buying that sustained support would be accorded the market from that source. There was nothing in the news of the day to afford a clear explanation of the weakness beyond the natural desire to take profits. The local traction stocks showed some positive weakness, and were something of a drag on the market, as was Sugar. The local tractions were sold on renewed apprehension that a heavy tax would be levied under the new franchise tax law. A sudden spurt to 164% by Metropolitan, after having sold at 160 a few minutes before, caused rallies in this group, steadying the whole market. The weakness in Sugar was due to the explicit announcement that recent negotiations for a compromise of the trade war had been abandoned. The iron and steel stocks continued dull and rather heavy on account of the machinists' strike. There was some apprehension early in the day that the rate

but this fear proved groundless. Money continued in good supply up to the close. The cash changes for the week on various accounts, as estimated, so nearly balance that the fate of the surplus reserves will depend upon the changes in the loan account. The subtreasury has commenced to disburse the premium on government bonds deposited for conversion into the new twos, and as a consequence the losses by the banks for the week on subtreasury operaalmost offset by receipts of gold from Canada and other points. The shipments to the interior are almost exactly offset by the receipts. The profit-taking in the interior are almost exactly offset by the receipts. The profit-taking in the interior are almost exactly offset by the receipts. the receipts. The profit-taking in governents has tended to the reduction of the sans of the new banks, but the renewed ctivity on the stock market has created a emand for new loans. The action of the oney market indicates that the banks are well within their limit of legal reserves. The bond market was less active than Thursday, and yielded some points in sympathy with stocks. Total sales at par value were \$2,585,000. United States twos ad-

for loans to carry over until Monday would

cause a pinch in the call money market.

Methodists Want Converts. BUFFALO, N. Y., March 23.-Bishop Charles H. Fowler, who has just returned from the Philadelphia Conference to the episcopal residence in this city, gives expression of his views, which, in substance, follow: "The week of fasting or abstinence or prayer of the Methodist Episcopal Church will extend from March 25 to April 1, inclusive. Each person makes his own interpretation of abstinence. In reviewing our work over the world we found we have declined a little in numbers, perhaps one-half of 1 per cent. Numbers are not the most important element in church life, but rather spiritual quality; then grave in the South where reposes a blue uniform contains a communicant from a plant the heathen continents with Methodist graves. This week will steady our ranks and stiffen our staying powers, keep the coming General Conference from irrepprable blunders. We want at least two million converts in the next two years."

IT IMPARTED FIRMNESS TO THE WHOLE CHICAGO MARKET.

Wheat Closed Strong After a Reces Provisions Ascended Steadily.

CHICAGO, March 23.-The wheat market to-day was early depressed by the enormous Argentine shipments, but reacted later on the big cash business and sympathy with the corn rally, closing firm, with May 15c under yesterday. May corn closed %c improved and May oats a shade up. Provisions were strong and active, lending more or less support to the grain pits. May pork closed 171/2020c higher and May lard and May ribs each 10c improved. May wheat opened 1/2c under yesterday at 651/6651/4c, depressed by lower cables and the record-breaking size of Argentine shipments. The cash business done yesterday -350,000 bushels during the day's sessionwas increased to 600,000 bushels, and this fact, together with the corn and provision strength and the moderate receipts, caused a rally which carried May to 65%c. The close was firm, with May 1/8c under yesterday at 651/2065%c. Trade during the greater part of the session was rather quiet. New York reported forty-six loads taken for export. Clearances were 100,000 bushels, all of it in flour. Primary receipts were 660,000 bushels, compared with 479,000 last year. Minneapolis and Duluth reported 480 cars, against 482 last week and 392 a year ago. Local receipts were twenty-two cars, none of contract grade.

ceipts were 473 cars. Trade was rather eign. quiet and the cash business about 85,000 bushels. Buying by interests which have recently been supposed to be taking profits inaugurated the sharp rally, which stopped only with the end of the session. May ranged from 36% @36% to 37% and closed %c up at 37% @37%c. The trade in oats was small and such

firmness as the market showed was in sympathy with corn. Some May was sold early, but it was taken back when corn began to rise. Local receipts were 224 cars. May ranged from 23%c to 24@24%c and closed a shade improved at 24@24%c. The provision market was strong and generally active, lending some of its strength to the grain markets, Receipts of hogs under the estimate, higher prices at the yards, better cables and a sharp general cash demand, together with covering by shorts, were influences. The small stocks also contributed to the support, bringing in considerable outside trade May pork ranged from \$11.70 to \$11.80 and closed 171/2@20c over yesterday at \$11.80; May lard from \$6.171/2 to \$6.271/2, closing 10c up at \$6.25@6.271/2; May ribs 10c up at \$6.25@

6.35, with the close 10c improved at \$6.306 Estimated receipts to-morrow-Wheat, 55 cars; corn, 475 cars; oats, 180 cars; hogs,

A note from Richmond in your issue of Friday last makes me oppose "imperialistic tendencies;" if "imperialism" means the extension of the equal fair chance which the American citizen has to other "priestridden, king-ridden" peoples, I am in favor of it, and have always been; subjecting territory to exploit and tax is a different thing, and I oppose it; we must not con-

Why should we discuss free trade with Porto Rico any more than New Mexico? A cattle and 6.175 quarters of beef.

Caives—Receipts, 641; 831 on sale. Market protective tariff is not in question; we are baptizing several new households into the faith, not considering the faith itself. We distinguish between expansion, i. e., freedom for more people, and imperialism, i. e., subjects unequally taxed. Our precedent, if we get it, will endanger our President. I do not know a single apologist for the Porto Rican tariff bill.

Calves—Receipts, 641; 831 on sale. Market dull and 50c lower; about all sold. Veals, \$306.50; toos, \$707.50.

UNION STOCKYARDS, INDIANAPOLIS March 23 .- Cattle-Receipts, 600; shipments 100. An increase of good export steers was represented in the arrivals to-day, but there were hardly as many good cattle o all kinds as usual at this time in the week. The supply was only moderately large, and, with a better demand from all buyers, but especially from local killers, the trading was active and sales were at strong to higher prices. The advance was for the most part on good steers, and they sold at 10c above prices current heretofore this week. Plain fat steers sold at \$5.25 and

heifers as high as \$4.40. Common to medium cows and Hogs - Receipts, 4,500; shipments, 1,500 With quite an urgent demand from order buyers for hogs and active competition from local packers the market opened with considerable animation in the bidding, and from the start offerings changed hands promptly at unevenly higher prices, but for the most part 5@10c above yesterday. There were no really fancy hogs offered, and therefore representative sales probably do not show the full strength of the market. All were soon sold, and the closing was strong. Quotations:

Sheep - Receipts, 100; shipments none. There was another moderate supply of sheep and lambs, and with order men unable to get a shipment they were practically out of the market. There was a very good inquiry from local butchers, however, and a small supply sold promptly at strong prices compared with those current heretofore this week.
